BACKGROUND

José, originally hired in April 2006 as the Assistant Estimator, has since become an Estimator. He came highly recommended from Columbus State Community College and brought his broad experiences—ranging from General Laborer to Business Manager—to the team to round out our estimating crew.

José performs many Estimating & Design tasks and is proficient with AutoCAD and WinEst softwares. José works directly with our subtrades and other business partners and helped develop several new initiatives to better serve our customers.

During his construction career, José has mastered many roles:

- ⊗ Estimator
- ⊗ Assistant Estimator
- ⊗ Business Owner
- ⊗ Senior Project Manager
- ⊗ Lead Foreman
- ⊗ Scaffolding Supervisor

⊗ OSHA 10-Hour Certification

University of South Florida
⊗ OSHA Heavy Equipment Operator
⊗ Certification
⊗ OSHA Competent Scaffolding Person
⊗ Certification

EDITOR'S NOTE

The most notable project José completed was a four-month stint applying exterior finishes and architectural details to the Wyndham Miami Beach Resort Hotel, an historic 20-story Art Deco gem. During breaks, he would lean back, take in the breathtaking views and watch the world go by...

One of the more startling episodes of his tenure as a business owner was when he was "challenged" by several large water moccasins blocking a corridor. A friendly visit from Animal Control cleared up the problem and he hasn't been "inspected" by snakes since, but he's "keeping his eyes open."

José lives in Pataskala with his wife, Stephanie and baby girl, Ysa. His hobbies are "learning all about baby girls," sports, computers—and keeping up with his large family.

He will be pursuing a Bachelors Degree in Business Administrator from Capital University and plans to graduate in 2014.
